1. Press and hold MFB button for 5 seconds to power off headphones.
2. Press and hold the MFB button for at least 10s until headphones status LED indicate in pink, and then release the button. The Headphones have been reset successfully.
3. Power on headphones again and then delete the previous connection from the Bluetooth device and reactivate Bluetooth to reconnect "EarFun Wave Pro".

⑧ Charging

1. Please clean the USB-C charging port before charging.
2. Fully charge the headphones before first use.
3. You can check the headphones battery level from the Bluetooth device or EarFun Audio app.

Connect USB-C cable for charging

⑨ AUX Input

1. The headphones will power off and disconnect Bluetooth connection when plug-in the AUX audio cable.
2. In AUX input mode, the audio will connect to the transducer directly that can't control the volume, play/pause by the headphones, and also can't be controlled by the EarFun Audio app. Please use the front-end device to adjust the volume and play/pause.

Note:

Please ensure that the volume of front-end device is turned down to minimum when connecting the AUX audio. Adjust the volume after putting on this headphones.

⑩ Specifications

Connectivity	Bluetooth
Bluetooth frequency	2.402GHz-2.480GHz
Bluetooth profile	A2DP, AVRCP, HFP, HSP
Bluetooth transmitted power	<7dBm (for EU)
Maximum working range	15m(without obstacle)
Battery capacity	800mAh
Charging time	2 hours
Playtime	ANC OFF--Up to 80 hours (varies by volume level and audio content) ANC ON--Up to 55 hours (varies by volume level and audio content)
Input	5V $\equiv$ 1A
Dimensions	159.7mm x 82.4mm x 210.8mm
Weight	268g

11 Troubleshooting

Q: The headphones are turning on, but it doesn't connect to my device?

A: To connect the headphones to your device, please ensure headphone is power on, then check if the Bluetooth is enabled. If the Headphones still don't connect to your device, please perform a reset or contact our customer support.

Q: Why is the connection not stable and cuts out intermittently?

A: Please make sure there are no objects between the headphones and your Bluetooth device and make sure there is no radio or WIFI interference nearby.

Q: What is the range of Bluetooth headphones?

A: Bluetooth headphones have maximum range of 49 feet (15m, no obstacle). However, the actual range will depend on usage and environment.

Q: My headphones will not switch on.

A: Please recharge them and make sure they have enough battery power. If they are fully charged and still nothing happens or if you are not able to charge them, please contact our customer support.

Q: Will the headphones shut off automatically?

A: The headphones will stay on as long as they are connected to a device. If no audio is playing, they will enter power-saving mode and wake up once audio playback resumes. If the headphones are not connected to any devices they will automatically power off after 30 minutes.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Compliance

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

CAUTION

Risk of explosion if the battery is replaced by an incorrect type

Disposal of a battery into fire or a hot even, or mechanically crushing or cutting of a battery, that can result in an explosion;

Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas;

A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

To prevent possible hearing damage, do not listen at high volume levels for long periods.

EU Declaration of Conformity

Earfun Technology (HK) Limited hereby declares that this equipment is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU and RoHS 2011/65/EU Directive. The declaration of conformity may be consulted in the support section of our Web site, accessible from www.myearfun.com

UK Declaration of Conformity

Hereby, [Earfun Technology (HK) Limited] declares that the radio equipment type [HP200] is in compliance with UK Radio Equipment Regulations (SI 2017/1206). The full text of the declaration of conformity is available at the following internet address: www.myearfun.com

ISED Compliance Statements

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

(1) L'appareil ne doit pas produire de brouillage;

(2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet équipement est conforme aux limites d'exposition aux radiations IC CNR-102 établies pour un environnement non contrôlé.
